Comparative Biochemistry and Physiology

Editor

Professor G. A. KERKUT, Department of Physiology and Biochemistry, University of Southampton, Southampton SO9 3TU, England (Executive Editor). Tel.: (0703) 559122

Members of the Honorary Editorial Advisory Board

T. H. BULLOCK (La Jolla)
C. B. COWEY (Aberdeen)
R. FÄNGE (Göteborg)
E. FLOREY (Konstanz)
W. S. HOAR (Vancouver)
H. KINOSITA (Saitama)
E. KREPS (Leningrad)
O. LOWENSTEIN (Birmingham)
C. MANWELL (Adelaide)
H. S. MASON (Portland)
C. L. PROSSER (Urbana)
J. ROCHE (Paris)
B. T. SCHEER (Santa Barbara)
C. A. VILLEE (Massachusetts)
G. WALD (Harvard)
J. H. WELSH (Maine)

Publishing, Subscription and Advertising Offices: *Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, England* (*Tel.* Oxford 64881).

North America: *Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY* 10523, *U.S.A.*

Annual Subscription Rates 1985 (including postage and insurance)

For libraries, research establishments and all other multiple-reader institutions: combined subscription, 1-yr $1625.00; 2-yr $3087.50. Part A, Comparative Physiology $695.00; Part B, Comparative Biochemistry $695.00; Part C, Comparative Pharmacology and Toxicology $400.00 (2-yr subscription rates: Part A, $1325.50; Part B, $1325.50; Part C, $760.00).

Specially Reduced Rates to Individuals

In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure. Any individual whose institution takes out a library subscription may purchase a second or additional subscription for personal use at the much reduced rate of $160.00 per annum (combined subscription). Part A, Comparative Physiology $75.00; Part B, Comparative Biochemistry $75.00; Part C, Comparative Pharmacology and Toxicology $60.00. Parts A and B: Three volumes of each part per year, four issues per volume (Part A—1st of the month; Part B—15th of the month). Part C: Three volumes per year, two issues per volume (commencing Vol. 50, No. 1, 1975).

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

CONTENTS OF VOLUME 81

Vol. 81C, *No.* 1

Ryozo Fujii, Noriko Oshima and Yoko Miyashita	1	Receptor mechanisms in fish chromatophores—VIII. Mediated by beta adrenoceptors, catecholamines always act to disperse pigment in siluroid melanophores
Haruyasu Ikeda	7	Effect of Ni^{2+} on Ca^{2+}-stimulated adenosine triphosphatase in the microsomal fraction of the rat parotid gland *in vitro*
T. Miyamoto and H. Washio	11	Postsynaptic effects of nickel ions at the insect neuromuscular junction
Maria Klaude and Alexandra von der Decken	19	*In vivo* distribution of dimethylnitrosamine metabolites in mouse liver and their binding to micrococcal nuclease sensitive and resistant chromatin
Anna-Lena Ungell	25	Accumulation of intra-arterially administered [^{3}H]adrenaline and [^{3}H]noradrenaline in various tissues of the Atlantic cod, *Gadus morhua*
B. Somasundaram, P. E. King and S. E. Shackley	29	The effect of zinc on the ultrastructure of the posterior gut and pronephric ducts of the larva of *Clupea harengus* L.
Birgit Hoffmann and R. Hardeland	39	Membrane fluidization by propanolol, tetracaine and 1-aminoadamantane in the dinoflagellate, *Gonyaulax polyedra*
S. Micelli and E. Gallucci	45	Effect of aminoglycoside antibiotics on sodium transport across the *Rana esculenta* urinary bladder
A. J. Ashraf, G. M. Smith and Thelma C. Fletcher	53	Isolation of substances with vascular permeability-increasing activity from the skin of the plaice (*Pleuronectes platessa* L.)
Gerald Audesirk, Teresa Audesirk, Richard E. McCaman and Joyce K. Ono	57	Evidence for genetic influences on neurotransmitter content of identified neurones of *Lymnaea stagnalis*
Yojiro Muneoka and Masahiro Matsuura	61	Effects of the molluscan neuropeptide FMRFamide and the related opioid peptide YGGFMRFamide on *Mytilus* muscle
Keith B. Pierson	71	Occurrence and synthesis of a non-thionein, zinc-binding protein in the rainbow trout (*Salmo gairdneri*)
John X. Wilson and Duc van Pham	77	Catecholamine hormones and the control of avian salt glands
Daniel J. Lenihan, Neil Greenberg and Ten-Ching Lee	81	Involvement of platelet activating factor in physiological stress in the lizard, *Anolis carolinensis*
Scott W. Melanson, Chang-Hyon Yun, Maureen L. Pezzementi and Leo Pezzementi	87	Characterization of acetylcholinesterase activity from *Drosophila melanogaster*
Subhash Rashatwar and Fumio Matsumura	97	Reduced calcium sensitivity of the sodium channel and the Na^+/Ca^{2+} exchange system in the *Kdr*-type, DDT and pyrethroid resistant German cockroach, *Blattella germanica*
Michael S. Denison and James D. Yarbrough	105	Binding of insecticides to serum proteins in mosquitofish (*Gambusia affinis*)

Helen P. Boyles and Hiroshi Takeuchi	109	Pharmacological characteristics of the three giant neurons, d-LPeLN, d-LPeCN and d-RPeAN, identified on the dorsal surface of the pedal ganglia of an African giant snail (*Achatina fulica* Férussac)
Lawrence E. Licht	117	Uptake of ^{14}C DDT by wood frog embryos after short term exposure
Bruce J. Baum, Brian L. Kuyatt, Yossi Helman, Malcolm V. Gee and George S. Roth	121	$Alpha_1$-adrenergic responsiveness of young adult and aged rat submandibular cells *in vitro*
Gerald T. Ankley, Robert E. Reinert, Adelbert E. Wade and Robert A. White	125	Temperature compensation in the hepatic mixed-function oxidase system of bluegill
A. G. Abdel Rahim	131	The effects of dietary L-ascorbic acid on the absorption and utilization of $Na^{75}SeO_3$ of silver-treated rats
M. I. Thabrew, T. O. K. Nashiru and G. O. Emerole	133	Drug induced alterations in some rat hepatic microsomal components: a comparative study of four structurally different antimalarials
A. M. Hilmy, M. B. Shabana and A. Y. Daabees	139	Bioaccumulation of cadmium: toxicity in *Mugil cephalus*
A. M. Hilmy, M. B. Shabana and A. Y. Daabees	145	Effects of cadmium toxicity upon the *in vivo* and *in vitro* activity of proteins and five enzymes in blood serum and tissue homogenates of *Mugil cephalus*
Mümtaz İşcan	155	Comparison of *in vitro* effects of cadmium and nickel on the components of the liver microsomal drug metabolizing enzyme system of the guinea-pig
J. Hidalgo, L. Tort and R. Flos	159	Cd-, Zn-, Cu-binding protein in the elasmobranch *Scyliorhinus canicula*
A. I. Mustafa, B. H. Ali and A. M. Satti	167	HPLC analysis of furazolidone in goats given the therapeutic dose
Alfredo Salibián, Jorge Herkovits and Priscilla G. Minotti	171	Effects of low concentrations of ethanol on the embryonic development of *Bufo arenarum*
T. M. Wong, M. J. Greenberg and S. Y. H. Tse	175	Cardiovascular effects of intraventricular injection of FMRF-amide, met-enkephalin and their common analogues in the rat
Alain Villeneuve, Michel Berlan, Max Lafontan and Jean-Louis Montastruc	181	Characterization of dog platelet alpha-adrenergic receptor: lack of *in vivo* down regulation by adrenergic agonist treatments
Reinhard Volkmann	189	Electrical and mechanical activity of isoproterenol-damaged frog heart
Reinhard Volkmann and Ann-Sofi Pettersson	195	Influence of temperature and cyanide on electrical and mechanical activities of isoproterenol-damaged frog heart
Dora M. Berman	203	Inhibition of stimulated osmotic water flow by fluphenazine, a calmodulin inhibitor, in the isolated toad skin
K. Gromysz-Kałkowska, E. Szubartowska and E. Kaczanowska	209	Peripheral blood in the Japanese quail (*Coturnix coturnix japonica*) in acute poisoning by different insecticides
Pietro Cenini	213	Induction of metal-binding proteins by zinc is accompanied by reduction of other proteins including antibodies
H. Breer and M. Knipper	219	Effects of neurotoxins on the high affinity translocation of choline in synaptosomal membrane vesicles from insects

Sania A. I. Shaddad, I. A. Wasfi, O. E. Yassein, A. E. Ali, M. A. Maglad and S. E. I. Adam 223 The effect of oxytetracycline on the fat content and fatty acid composition of the egg yolk

Morna J. McIntosh, Peter A. Meredith, Michael R. Moore and Sir Abraham Goldberg 227 Neurotoxic action of lead: effect on tetrahydrobiopterin metabolism in the rat

P. J. Boyd, C. R. Gardner and R. J. Walker 233 Actions of some 5-hydroxytryptamine analogues on the isolated heart of the snail *Helix aspersa*

P. A. F. Dixon, S. E. Okereke and M. C. N. Enwelum 241 Influence of species, sex and drug pretreatment on the metabolism of metyrapone

245 Erratum

Vol. 81C, *No.* 2

Minireview

Steven R. Hager and E. Edward Bittar 247 Hormones and the barnacle muscle fiber as a preparation

General Papers

Hiroaki Kasukawa, Masazumi Sugimoto, Noriko Oshima and Ryozo Fujii 253 Control of chromatophore movements in dermal chromatic units of blue damselfish—I. The melanophore

F. B. Eddy and C. Talbot 259 Sodium balance in eggs and dechorionated embryos of the Atlantic salmon *Salmo salar* L. exposed to zinc, aluminium and acid waters

I. Sunila and R. Lindström 267 The structure of the interfilamentar junction of the mussel (*Mytilus edulis* L.) gill and its uncoupling by copper and cadmium exposures

G. Gluth, D. Freitag, W. Hanke and F. Korte 273 Accumulation of pollutants in fish

Fumihiro Morishita, Heizaburo Katayama and Koji Yamada 279 Subtypes of beta adrenergic receptors mediating pigment dispersion in chromatophores of the medaka, *Oryzias latipes*

Joanna Burger and Michael Gochfeld 287 Comparisons of nine heavy metals in salt gland and liver of greater scaup (*Aythya marila*), black duck (*Anas rubripes*) and mallard (*A. platyrhynchos*)

Pekka Kaipainen, Ulla Koivusaari and Matti Lang 293 Catalytic and immunological comparison of coumarin 7-hydroxylation in different species

R. W. Pimley and K. A. Stafford 297 Octopamine distribution in the tsetse fly *Glossina morsitans*

V. W. T. Wong and P. S. Rainbow 303 Estimation of crab metallothioneins using a modified Lowry assay

Lorna A. Meldrum and Geoffrey Burnstock 307 Investigations into the identity of the non-adrenergic, non-cholinergic excitatory transmitter in the smooth muscle of chicken rectum

T. Neild and N. Kotecha 311 Two-component responses to sympathetic nerve stimulation in the rat tail artery

Ornella Senatori and Antonietta Nicotra 319 Mitochondrial monoamine oxidase activity during preneural developmental stages of *Bufo bufo*

Bogdan B. Beleslin 323 Sensitivity of the resting sodium conductivity of leech Retzius nerve cells to tetrodotoxin

Dixon W. Wilde 329 A study of the innervation of the anterior esophagus of *Busycon canaliculatum*—I. Innervation pattern and evidence of the presence of catecholaminergic neurohumors

George A. Gerencser, Stanley Y. Loo and Kuuleialoha M. Cornette	337	Ethanol and silver effects on ion transport across toad skin
Mace G. Barron and Ira R. Adelman	341	Temporal characterization of growth of fathead minnow (*Pimephales promelas*) larvae during sublethal hydrogen cyanide exposure
Jude Nwoga and E. Edward Bittar	345	Stimulation by proctolin of the ouabain-insensitive sodium efflux in single barnacle muscle fibers
Michael T. Ivy, Robert Sukumar and James G. Townsel	351	The characterization of a sodium-dependent high affinity choline uptake system unassociated with acetylcholine biosynthesis
B. Christophe and F. Baguet	359	The adrenergic control of the photocyte luminescence of the *Porichthys* photophore
M. Gleeson, A. L. Haigh, V. Molony and L. S. Anderson	367	Ventilatory and cardiovascular responses of the un-anaesthetized chicken, *Gallus domesticus*, to the respiratory stimulants etamiphylline and almitrine
M. José Herranz-Santos and Manuel Ruiz-Amil	375	Pyruvate kinase of mussel (*Mytilus edulis* L.) foot. Influence of organochlorine insecticides
Paul J. Boyd and Robert J. Walker	379	Actions of the molluscan neuropeptide FMRF-amide on neurones in the suboesophageal ganglia of the snail *Helix aspersa*
A. Rees, S. Harvey and J. G. Phillips	387	Adrenergic stimulation of adrenocortical secretion in immature fowl
Peter G. Bushnell, Mikko Nikinmaa and Aimo Oikari	391	Metabolic effects of dehydroabietic acid on rainbow trout erythrocytes
Amal Ali Rageb Radi, Do Quy Hai, B. Matkovics and T. Gabrielak	395	Comparative antioxidant enzyme study in freshwater fish with different types of feeding behaviour
M. D. Andrés, E. Rebolledo, M. C. Taboada and M. P. Fernandez Otero	401	Actinomycin D and cycloheximide actions on activity of some intestinal enzymes of adult hamster
M. L. Leret and A. Fraile	405	Effect of gonadectomy on brain catecholamines during the postnatal period
M. B. Bennett and J. C. Rankin	411	Identification of beta-adrenergic receptors in teleost red blood cells
T. Gabryelak and J. Klekot	415	The effect of paraquat on the peroxide metabolism enzymes in erythrocytes of freshwater fish species
Rosalba Barboza and Jesús Chacín	419	Effects of phenothiazines on acid secretion in the toad gastric mucosa
H. Nederbragt	425	Strain- and sex-dependent differences in response to a single high dose of copper in the rat
Zerrin Söylemez and Inci Özer	433	Multiple effects of isoproterenol on horse plasma cholinesterase
I. Pinchasi, M. Burstein, M. Moldovan and D. M. Michaelson	439	Seasonal variations in the muscarinic regulation of acetylcholine release from *Torpedo* electric organ nerve terminals
K. W. Chiu and J. S. K. Sham	445	Adrenergic receptors of isolated snake atria
Kérimé Redouane and Suzel Fuzeau-Braesch	451	Octopamine sensitive adenylate cyclase in the brain of the migratory locust *Locusta migratoria cinerascens:* comparison between different ages in the solitary and gregarious state

Yu. S. Khotimchenko, I. I. Deridovich and E. A. Zalutskaya 457 Spectrofluorometric determination of indolylalkylamines in gonads of echinoderms

E. Gomes Quintana and H. Nesralla Lobão 461 Influence of denervation on the cholinergic membrane of the electric tissue of *Electrophorus electricus* (L.)

Paolo Zatta, Paolo Buso and Giuliano Moschini 469 Selenium distribution in the tissues of *Carcinus maenas*

Robert M. Grossfeld 471 Inhibition of crayfish glutamic acid decarboxylase by structural analogs of the substrate and product

COMPREHENSIVE HETEROCYCLIC CHEMISTRY

The Structure, Reactions, Synthesis and Uses of Heterocyclic Compounds

Chairman of the Editorial Board: **ALAN R KATRITZKY, FRS,**
University of Florida, USA
Co-Chairman of the Editorial Board: **CHARLES W REES, FRS,**
Imperial College of Science and Technology, UK

The most authoritative, modern and comprehensive work of reference ever published on heterocyclic chemistry

* Supplied in eight handsomely bound volumes containing over 8000 large format pages (272x188 mm)

* Written by 150 of the world's leading researchers in heterocyclic chemistry, from 19 countries, under the direction of internationally renowned editors

* Provides information essential to chemists in research, industry and teaching

* Particular emphasis given throughout to medicinal and industrial applications

* Systematic arrangement of all chapters provides uniform treatment throughout

* Unique reference system allows very easy access to the primary literature

* Four extensive indexes (subject and author indexes, a unique ring index, and a novel physical data index) provide multiple entry points to the text volumes

Independent Reviews

(Reprinted from *Tetrahedron* 1984, Vol. 40, No. 16.)

"This series will serve as the most valuable landmark of heterocyclic chemistry and will be an essential collection in the library." **T Mukaiyama, University of Tokyo, Japan**

"From all viewpoints, Comprehensive Heterocyclic Chemistry *must be considered a spectacular success. It represents a staggering effort by the Co-Chairmen, volume editors and authors alike, who should all be congratulated on a superb contribution to the chemical literature."* **E C Taylor, Princeton University, USA**

"...it is clear that this (work) will provide chemists of all kinds, as well as biologists, biochemists, molecular biologists and other experts on the borderline with chemistry, with an essential service which no one should be without, at least in the library." **Sir Derek Barton, FRS, CNRS, Gif-sur-Yvette, France**

"This is a splendidly comprehensive work of scholarship. It provides a vast amount of information in an easily locatable and digestible form. It is up-to-date and it is authoritative; its subject matter is of real importance to tens of thousands of researchers in industry and the universities, and it can be confidently recommended to all chemical librarians." **J I G Cadogan, FRS, British Petroleum, London, UK and President of the Royal Society of Chemistry**

Over 8000 pages in 8 volumes 272x188 mm 1984
0 08 026200 7 Hardcover **£1375-00 US$2200-00**

A Valuable Supplement to the Set
Supplied free to all new purchasers of COMPREHENSIVE HETEROCYCLIC CHEMISTRY

HANDBOOK OF HETEROCYCLIC CHEMISTRY **A R KATRITZKY, FRS,** *University of Florida, USA*

Provides a one-volume overview of the whole subject comprising a distillate of the complete work and emphasizing the relationships between groups of heterocycles and the overall logic of the subject.
Contents: Structure of heterocycles. Reactivity of heterocycles. Synthesis of heterocycles. Index.

400 pp approx March 1985
0 08 026217 1 Hardcover **£50-00 US$80-00** approx
0 08 030726 4 Flexicover **£18-50 US$29-50** approx

Please Write For The FREE Fully Descriptive Leaflet. Prices are subject to change without notice. Sterling prices apply to UK & Eire customers only.

Pergamon Press Headington Hill Hall, Oxford OX3 0BW, UK
Fairview Park, Elmsford, New York 10523, USA

Save **US$245.00** — order before 30 September 1985
Supplied in 4 volumes, October 1985

Comprehensive Biotechnology

Principles, Applications & Regulations of Biotechnology in Industry, Agriculture and Medicine

Editor-in-Chief: MURRAY MOO-YOUNG, *University of Waterloo, Canada*

The Most Authoritative, Multidisciplinary, Multipurpose Reference Work on Biotechnology

- ★ Over 3500 large format pages (272x188 mm) in four handsomely bound volumes
- ★ Indispensable to manufacturing and service industries, particularly those involved with pharmaceuticals, foods and beverages, fuels, chemicals, waste treatment, agriculture, mining and medicine
- ★ Important new developments in the legal, regulatory and international aspects of biotechnology are included
- ★ Written by over 250 of the world's foremost scientists and engineers in biotechnology, from 15 countries, under the direction of internationally renowned editors
- ★ Systematically arranged for easy access by both general and specialized scientists and engineers
- ★ All information regularly updated by the Pergamon review journal *Biotechnology Advances*
- ★ Volumes 1 and 2 present the *unifying, multidisciplinary principles of biotechnology in terms of scientific and engineering fundamentals*
- ★ Volumes 3 and 4 *describe the applications of biotechnology principles in the various manufacturing and service practices in industry, government and business*
- ★ Volumes 1-3 *separately indexed and a cumulative index* is contained in Volume 4. *A detailed glossary of terms helps the beginner in the various areas of the field*

Of special interest to:

Chemical engineers and biochemical engineers who require information on mass and energy balances and rates of processes, including fermentations, product recovery and feedstock pretreatment, and the equipment for carrying out these processes

Biologists, microbiologists and molecular biologists who require information on the biological characteristics of living organisms involved in biotechnology and the development of new life forms by genetic engineering techniques

Environmental engineers and sanitary engineers who require information on biological waste treatment methods and equipment, and on contamination potentials of the air, water and land within the ecosystem, by industrial and domestic effluents

Chemists and biochemists who require information on the chemical characteristics of enzymes, metabolic processes, products and raw materials, and on the basic mechanisms and analytical techniques involved in biotechnological transformations

Health scientists, nutritionists and toxicologists who require information on biohazards and containment techniques, and on the quality of products and by-products of biotechnological processes, including the pharmaceutical, food and beverage industries

Administrators, executives and legal & investment advisors who require information on national and international governmental regulations and guidelines on patents, environmental pollution, external aid programs and the control of raw materials and the marketing of products

Over 3500 pages 8000 lit refs approx Autumn 1985 Prices subject to change without notice.

Special reduced price for orders received by 30 September 1985
